

# The Value of Life Story with Dementia

*Presented by Francine Pannella, LPN, CDP, BF-CMT, Founder of Dementia Living Solutions*

All of us use our life stories to help us cope with the constantly changing realities in our world. Reminiscing, or life review, is one of the primary tools for defining who we are. For people living with dementia, this process involves much more than simply asking, "Remember when...?"

During this presentation, Francine Pannella will help you learn how to use the power of a person's unique and precious life story to support the journey of life with dementia.

*Light dinner will be served.*
